SAFE FARMING IN COFFEE.

In another column of today's paper will be found recommendations which have been made by a committee of some eighteen successful farmers of the county, for a "Safe Farming Program" to be followed during this year, as well as in years to come. These recommendations, it seems to us, are worth the serious consideration of every farmer in the county. The "one crop" system has led many farmers to an unprofitable year's work, and while the committee has not recommended any radical changes, they have planned crops and methods that are most sure to be profitable. To say the least of it, the plan will furnish a good living at home for the farmer, and with anything like a favorable crop year, will also furnish some cash crops. These recommendations should be seriously considered by every farmer in the county before he plans his crops for the year.

The Clipper welcomes to its exchange table The Covington News, a new semi-weekly just started at Andalusia. The new paper is a four page seven-column sheet and is liberally patronized by business men of the Covington county capital, and is full of good reading matter. The paper is gotten out by The Covington News Co., Inc., and the name of Geo. S. Whaley appears at the masthead as managing editor. Here's wishing the new paper success.

BLAIR'S BAIL FIXED BY COURT WEDNESDAY

Covington News says: The Circuit Court on Wednesday fixed bail for Robert Blair, whose case was reversed and remanded by the Supreme Court on Thursday of last week the amount being fixed at \$4,000.00. The defendant was indicted for murder in the first degree, but was acquitted by the jury trying the case in the local court in December, 1922, of murder in the first degree, and the case now stands under the decision of the Supreme Court charging the offense in the second degree. The defendant if he makes bond will gain his liberty after having been confined in jail for some twenty months.

Henry Ford's Personal Representative, J. W. Worthington, and Officials of the Tennessee River Improvement Association Urge Citizens to Support Senator Underwood

Florence, Ala., February 16, 1924.

TO THE PEOPLE OF ALABAMA:

Senator Underwood is Alabama's Candidate for President. Henry Ford is Alabama's choice for Muscle Shoals. The undersigned, all officially connected with Tennessee River Improvement Association, started on our determined effort to get Ford's offer after most complete discussions of the question with Senator Underwood. We followed his suggestions and advice in presenting the question to Mr. Ford to secure his offer in the first place and have, in the long fight for its acceptance by Congress, taken no important step until after thorough discussion with Senator Underwood. His powerful influence at Washington has at every step been our chief bulwark.

Should the people of Alabama, at the approaching primary election, take for granted that he would certainly be elected, and not come out to give him an overwhelming vote, there is little doubt that our enemies at Washington would immediately seize and advise this as conclusive evidence that Alabama had turned against the Ford offer and had repudiated Senator Underwood on that account.

We appeal to the people to turn out at the polls and give him a great complimentary vote and thus assure the Ford friends at Washington of Alabama's fidelity to her faithful distinguished Senator, and to the acceptance of Henry Ford's offer for Muscle Shoals.

SOUTH ALA. POWER COMPANIES WILL INTER CONNECT LINES

Announcement of an agreement between the three major hydro-electric and power companies of South Alabama to inter-connect their individual systems, purchase and install the equipment necessary to make exchanges of power from one plant to another at a cost of approximately \$100,000 and a development of an ultimate capacity of 20,000 horse power which will mean much to fourteen Alabama and three North Florida municipalities which they serve, was made last week by the engineers at work on the plans for the extensive improvements.

Under the agreement entered into by the three contracting parties the River Falls Power Company, River Falls, Ala., the Houston Power company of Dothan, and the Pea River Power company of Troy, will inter-connect their systems, purchase and install all necessary transformers, meters, transmission lines and all appurtenance in order to make an exchange of power from one plant to another whenever there is an available supply in one system and a demand for this surplus in another.

The improvements which will involve the expenditure of a probable \$100,000 include: At Gantt, Ala., install a feed or panel to "match" and be a part of present switchboard, connect outgoing line of 2,300 volts to a bank of two or three 500 K. V. A. 2,300-3,300 volt transformers complete with substitution equipment.

Build 2,300 volt transmission line fifteen miles in length, connecting Gantt and Opp.

Provide a three way metering switching and switchboards station at Opp.

Change wire on Opp-Samsom line from No. 8 to No. B. S. copper.

Install metering and switching station at Samsom.

Build 2,300 volt coil line connecting Samsom and Geneva.

Install switching, transforming and synchronizing station at Geneva.

The Southern Engineering corporation of Albany, Ga., of which Emmet Kilbrew is president are the engineers of the work. Bids will be received soon on all the equipment and appurtenances. Plans and specifications are being drawn at the present time and are turned over to a list of invited bidders.

The actual construction is expected to begin in the next few months and the work will be rushed to completion for the summer months. It is pointed out that in the dry season it is impossible at times for the plants to supply necessary power or but it is believed that the merger will remedy this deficiency.

Municipalities served by the three power companies are Gantt, River Falls, Andalusia, Elba, Troy, Brundidge, Opp, Kinston, Samsom, Ozark, Newton, Hartford, Geneva and Slocomb, Ala., and Greenville, Bonifay and Chipley, Fla.

Ohio has more United States pensioners than any other state.

Safe Farming Program For Coffee

The following recommendations for a program of "safe farming" in Coffee County, were adopted by some of the leading "dirt farmers" in the county, and are being given to those who are interested in making their work profitable. Read these recommendations carefully:

Soil Improvement. We recommend terracing, velvet beans planted in corn, winter cover crops such as oats, rye and hairy vetch, crop rotation, more attention to livestock and care of barn fertilizers.

Farm Crops. We recommend per acre not over 8 acres in cotton, 10 acres in corn, 12 acres in peanuts, together with sufficient acreage in cane, potatoes, orchard, garden and truck to supply home consumption and a small surplus for sale. We urge not less than 50 road hens, 1 brood sow, 2 dairy cows per farm.

Fertilizers. We recommend the Alabama Experiment Station mixtures as follows: COTTON: not less than 200 pounds acid phosphate, 100 pounds nitrate of soda, and 50 pounds muriate of potash per acre applied at planting time. EXCESS SODA which is applied as follows 25 pounds mixed with phosphate and muriate and put down at time of planting. The remaining 75 pounds to be applied as a side dressing as soon as the cotton is chopped. CORN: 100 pounds nitrate of soda applied at side dressing when corn is knee high. No other fertilizer is recommended for corn because it will not pay. PEANUTS: 200 pounds acid phosphate per acre under peanuts at planting. Nothing else will pay for peanuts.

Boll Weevil Control. Select good seed land free of stumps, gullies, nearby woodland or thickets. Prepare land well and early allowing seedbed to settle before planting. Plant good seed. Cook or Toole preferable reasonably early using one bushel per acre. Chop cotton leaving a hoe width in the drill and rows from three to three and one half feet apart. If labor is plentiful pick early weevils; if not use one pound calcium arsenate mixed with one gallon of molasses mopped in bud of cotton. Later just before plowing use calcium arsenate spray of five pounds per acre and repeat as necessary. Practice thorough, frequent and shallow cultivation at all times cotton early and consign to Farm Bureau in order that the price may hold up.

Livestock. We recommend more attention to hogs, poultry and dairy cattle; specially do we urge the co-operation of every farmer in the promotion of more cream shipping and the organization of cream stations such as the one in Heath's store at Enterprise. Better bulls are needed and everyone should co-operate fully with our County Agent in his endeavor to establish dairying in Coffee County. It will mean another cash crop and better soils and better farms and less poverty, mortgage and want.

Pastures. We recommend that pasture lands be selected for their adaptability, passing up ridge in preference to lowlands. Bushes and thickets should be cleared and a mixture of lespedeza, carter grass and dallis grass sown for permanent pasture.

Marketing. We recommend co-operative marketing of our farm products, and urge everyone to join the Farm Bureau. This is a business organization of farmers and has already produced good results for the C. P. Wilson, John Walton, W. S. Simms, Farm Moor and Willing members in the way of lower prices of fertilizers and in the C. P. Wilson's Farm Bureau.

Boys And Girls Club Work. We strongly endorse this organization and urge everyone to join it.

LARGE RATTLES KILLED. A large rattlesnake was killed on last Sunday by Messrs. C. P. Wilson, John Walton, W. S. Simms, Farm Moor and Willing members in the way of lower prices of fertilizers and in the C. P. Wilson's Farm Bureau.

UNDERWOOD'S MASONRY STAUNCH, STRONG AND TRUE

Attempt to Inject Ancient Order in Present Political Campaign Now
Having Boomerang Effect On Schemers.

Masons all over Alabama are shocked and amazed that anyone should so far forget the teachings of Masonry as to deliberately set out to make the fraternity an issue in a political campaign. It is of striking significance to the craft, that much of this imposition upon the order is the work of non-Masons. This fact alone should excite the curiosity and arouse the doubt of every member of the order as to the sincerity of those striving to spread this unkind and un-Masonic propaganda.

A deliberate distortion of the real meaning and intent of a letter Senator Oscar W. Underwood recently wrote to the editor of the Fellowship Forum was blazoned forth on the front page of that publication under the glaringly misleading headlines: "Senator Underwood Deserts His Masonic Friends." Senator Underwood has not deserted his Masonic friends and no one reading the correspondence published can see how the editors could justify such headlines as they used.

Senator Underwood, appreciating the proprieties of the occasion, was reluctant to dignify such an absurd charge with notice, but answering the urge of many friends, themselves members of the order, he has issued a statement which stamps this un-Masonic misrepresentation as an untruth on its face. The whole cloth, this statement which follows forever dispels any question as to the Senator's Masonic views, in the minds of all true members of the craft:

UNITED STATES SENATE
Washington, D. C., Feb. 10, 1924.
Hon. A. M. Tunstall,
Exchange Hotel,
Montgomery, Alabama.
My dear Mr. Tunstall:
I am in receipt of your letter relative to the dissemination in

some parts of the country of political propaganda charging that I am a member of the Catholic Church and have renounced my affiliation with the Masonic fraternity.

These statements are untrue. I am a thirty-third degree Mason, in good standing; have been a member of the Episcopal Church since I was a boy eighteen years of age; and have no other religious affiliation. My wife and sons also are affiliated with the Episcopal Church.

Thanking you for affording me this opportunity to express my views, I am,
Sincerely yours,
O. W. UNDERWOOD.

Masons all over the State, aroused at the deception and misrepresentation through which scheming politicians have sought to play upon their credulity, are loyally standing for justice for an abused brother.

Reflected in a rush to the Underwood standard by those members of the craft who see the scheme for what it is—right-seeking with selfish politics.

Masonry is far above the plane of politics and the members of the order, outraged at its attempted abuse by political self-seekers, are rushing to the defense and support of Oscar W. Underwood, 33rd degree Mason, American Patriot and Alabamian, whose Masonry rings true and needs no defense.

March 11th, will see a deserved re-buke administered to those who would tear down the pillars of this institution and trample it in the muck of politics, for selfish gain.

My attention has been called to a circular issued by the Executive Committee, quoting a special committee, claiming that Senator Underwood had requested the Secretary of the National Democratic Executive Committee to reserve rooms at the Waldorf-Astoria, New York, during the time of the National Convention for Charles Lewis. The circular also says that this same Charles Lewis is a representative of the House of Representatives.

As soon as I saw one of the circulars I telegraphed Senator Underwood, asking him whether or not the charges in this circular were true. He replied as follows:

When a clock goes fitfully, running only when the temperature is right, we do not trust it; but the clock that ticks out the minutes when it is hot, cold, wet or dry is the one we always rely on. It is the very same thing with our church workers—choir, teachers, superintendents and stewards. "At it, always at it" is the slogan for your church work as well as all other work. If you feel like shrinking from it, go to it! The only way to get rid of it is to do it; and remember you are a fellow worker with God. Our religion is a thing, not to be remembered so much as to be repeated.

The only enemy that can do you irreparable injury is that one called Fear who sits upon your shoulder and whispers in your ear, "You can't do it! You are afraid to try!" It is all in the mind—if you think you can, what is going to stop you? It is yourself that can't or can; you win or you lose, as you want to. Spruce up and dig in, you are a winner the moment you try it.

The Birth Day party at the parsonage held by the Woman's Missionary society was a delightful affair—music, both instrumental and vocal, recitations and comedians and tasteful refreshments, and you could not tell which was the best.

Next Sunday will be sacramental day. We hope every one will attend holy communion.

The children will have part in the songs next service. Come out and hear them sing. We thank every one who gave their names and money for membership in the Golden Cross. It will count here and hereafter.
